Collection Expansions

Dreamcastle Collection

Lovebirds Collection

Dinosaur Collection

Wallframe Collection

Koko's Creative Prints offers various directions for collection expansions, while preserving the unique experience of the concept.

Target Group-Specific Editions

Development of concepts with an adapted difficulty level and visual language, specifically aimed at, for example, the young maker (Kids) or the advanced hobbyist looking for depth.

Seasonal Themes

Koko's Creative Prints can cater to seasonal themes with 'limited editions'. Think of atmospheric packages for Halloween, romantic designs for Valentine's Day, or other holidays and annual themes.

Retailer-exclusive collections

We can fully align our concept with the current trends and color palettes within your assortment. This creates seamless synergy with your other product groups, stimulating cross-selling.

Why choose our expansions?

By varying themes, we create repeat purchases. The customer who starts with a regular collection today returns tomorrow for the seasonal special. We facilitate this process from A to Z: from trend research to final design.

Koko's Creative Prints

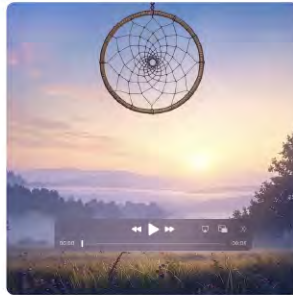

Marketing support

Koko's Creative Prints manages the entire creative process in-house, allowing us to produce and deliver marketing materials quickly.

We offer retailers high-quality photographic material and a wide range of dynamic content that perfectly aligns with current online and offline trends.

Our services are fully tailored to meet your specific creative and technical requirements. Our video content offering includes:

- Product close-ups: Detailed shots that make the texture and quality of our prints, as well as the finishing process, tangible.
- Lifestyle animations: Short, atmospheric clips in which our products come to life: from the DIY process to their place in the interior.
- How-to tutorials: Step-by-step instructions for optimally styling or hanging the prints.
- Social Media Reels: Short, fast-paced videos that are ready for immediate use on Instagram and other social media platforms.
